

Job Title	Internship (research and/or practical learning experience) at dynamic international organization working to harness the power of the private sector to tackle the world's most pressing nutrition issues.
Work Location	Utrecht, The Netherlands

Organization and Overall Purpose:

The Access to Nutrition Initiative is an independent, not-for-profit organization based in the Netherlands. We publish consistent, standardized analysis and commentary on food and beverage manufacturers' efforts to improve consumers' access to nutritious foods and beverages, both globally and in Spotlight countries.

Every country in the world is affected by malnutrition with 88% of countries facing overlapping burdens. Globally one in three people are either undernourished, overweight or obese. Over the last 35 years obesity has more than doubled and has now reached epidemic proportions. Over the next 10 years, undernutrition is also set to continue to increase in some countries.

Our vision is a world where:

- No one goes to bed hungry.
- Everyone eats a healthy, affordable diet that has the nutrients they need to grow and develop fully.
- Deaths and illnesses from diets low in essential vitamins and minerals are confined to history.

Our aim is to drive change by tracking and driving the food industry's attempts to tackle obesity, diet-related chronic diseases and undernutrition at the local and global levels. We design and deliver a range of private sector accountability tools, using our own research, experience and the knowledge of our growing global stakeholder network. Every action we take is intended to encourage businesses to do more to achieve good health through improved diets and nutrition. We pride ourselves on being innovative and collaborative and are increasingly working on new accountability tools and embarking on other bespoke research, establishing new partnerships with investors, not-for-profits and foundations. For more information on ATNI, please visit our website www.accesstonutrition.org.

The Role:

At ATNI we offer the possibility to experience a variety of supporting task and projects that will allow you to experience working in an international organization. We are open to discussing practical internships for individuals that want dynamic work experience and are interested in supporting the team on a variety of projects.

ATNI publishes the Global Index, country Spotlight Indexes and other tools and initiatives. ATNI's products provide companies with a tool to benchmark their performance on nutrition against others in their sector and provide stakeholders with impartial objective, consistent, in-depth information on companies' contributions to improving nutrition. The aim of ATNI is to encourage companies both to increase the number of healthier products and access to them, and also to responsibly exercise their influence on consumers' choice and behavior.

The first Global Index was launched in 2013 and subsequent Global Indexes in 2016 and 2018. They gained a positive response from stakeholders, including food and beverage manufacturers, NGOs and investors. The Global Index is published approximately every two years. In 2021 the fourth Global Index will be launched. In addition, ATNI publishes Spotlight Indexes for individual countries that aim to provide a strong evidence base for local dialogue and action. The first India Spotlight Index assessing India's largest Food and Beverage manufacturers was published in 2016 and the second in 2020. Similarly, the first U.S. Spotlight Index focusing on the United States was published in 2018 ATNI and the second is planned for publication in 2021. Other projects being conducted by ATNI and its implementing partners can be found on the [Projects section of the website](#).

Duties & Responsibilities include (but aren't limited to)

- Communications:
 - o Supporting with the implementation of ATNI's communications plan.
 - o Providing social media support and content production.
 - o Development of communication tools, working with well-known PR agencies.
 - o Writing and editing blogs on nutrition-related topics for the ATNI website and external outlets.
- Research
 - o Supporting the research team with desk research and literature reviews.
 - o Processing of information following country visits.
- Project management and implementation support
 - o Supporting the program managers in project implementation and planning
- Other
 - o Providing logistical support with the team such as arranging meetings, taking minutes, helping to organize side events.
 - o Helping to maintain ATNI's databases and document management systems.
 - o Prepare, edit and review PowerPoint presentations and other documentation
 - o Writing reports of stakeholder meetings.
 - o Monitoring and tracking nutrition-related events and news.

Qualifications

- Knowledge and experience in conducting desk research.
- Ability to work efficiently, as part of a team in a fast-paced environment.
- Strong communication skills, both verbal and written.
- Proficiency in Microsoft Office Suite, including Word, Excel, PowerPoint.
- Well organized with a high attention to detail.
- Knowledge of social media platforms (Twitter and Linked In), familiarity with social media analytics is considered a plus.
- An interest or proficiency in databases management will be considered a plus
- An interest or proficiency in document management systems will be considered a plus
- Fluent in oral and written English.
- A background in one or more of following or related fields: Communications/Media/International Development/Food and Nutrition/Sustainability/ Economics/Finance/ investing. Candidate should be eligible to work in the Netherlands.

ATNI also offers research internships for students that would like to combine doing research for their master's thesis, on topics that are related to nutrition and the food and beverage industry, with providing research and operational support to the ATNI team.

This position provides a unique opportunity to learn on the job and positively impact global health by helping to fundamentally shape the nutrition standards and practices of the largest food and beverage manufacturers globally.

The internship will last 4 - 6 months in total, for 3-5 days a week (to be discussed). An internship fee will be offered and all travel expenses to and from the office will also be covered.

Application process:	<ul style="list-style-type: none">• Please submit your application before July 31, 2020.• How to apply: Send a cover letter and max 2-page CV to Communications Coordinator Fiona Kirk: fiona.kirk@accessnutrition.org.• First interviews will be conducted over Skype. Second interviews for shortlisted candidates will be conducted in person.
